#### 15. Multidisciplinary / interdisciplinary

Plan for transforming into a multidisciplinary institution - Vidya Pratishthan has a beautiful and scenic educational campus spread over approximately 130 acres, where thousands of students are studying today in various schools and colleges, from different disciplines / faculties under one roof. As our college is situated in such a campus, having the potential of an independent deemed university, it is always ready to convert into a holistic multidisciplinary institution. Our apex body Savitribai Phule Pune University, Pune doesn't ordered us about the preparation of proposal regarding the conversion. Being an affiliated institution, we are waiting for the initiative steps from our mother institution in this regard and also for the direction from the State Government or affiliating university in this regard.

#### 16. Academic bank of credits (ABC):

YES

#### 17. Skill development:

To strengthen various essential skills among students, our college conducts many programs for students. As we consider the overall development of B. Ed. Student, there are mainly three sets of skills that we have to focus on. The first set of skills refers to 'life skills' second one is vocational skills and the last one indicate towards the generic skills which are required for the teaching profession. Training of vocational skills and certain life skills is a part of our syllabus. In first year B. Ed. Course, six micro teaching skills are developed. Reading skill, black board writing skill, Explanation skill, Questioning skill, Stimulus variation skill, Demonstration skill and

introduction skill are the micro teaching skills which sharpens an individual's teaching capacities to make him/her a confident teacher. To cope with the challenges of twenty first century education, technology based lessons seminars using ICT skills, Practical's and projects enhancing ICT skills are included in teacher training program. Team teaching lessons strengthens the social skills like working with others, commitment, collaboration, cohesiveness etc. In practice lesson and internship activity, whenever it concerns with content teaching ten life skills, namely Empathy, Problem Solving, Decision Making, Creative Thinking, Coping with Tress, Interpersonal Relations, Coping with Emotions, Critical Thinking, Effective Communication, Self Awareness are developed. Internship program is designed in such a way that it may convert in an ideal skill development program, if it is implemented in proper way. Our college does this in many ways. Preparation of teaching aids - Guidance and basic training is always given to the students by faculty for preparing relevant and novel teaching aids. A special workshop was arranged in 2021, for enriching their artistic skills like drawing, painting, sketching, paper cutting etc.

**18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)**

The ancient educational system of our country has an enriched heritage, with its ethics, core values and faiths. It is renowned for its comprehensiveness and spiritual aspects, having capacity of being a 'world leader'. Therefore legacy of Indian knowledge system has much to give to the students. Integration of Indian Knowledge system in today's B. Ed. Program is in indirect form. The curriculum of the B. Ed. Program lend itself to the Integration into certain concept in all the courses. Some courses such as paper No. 102, integration find a place directly in selected topics such as - Aims of education in ancient Indian education, functions and system of a family. In paper no. 202, multiculturalism and multilingualism in Indian and Global context. In paper no. 204 Guidance and Counselling, in paper 106, 107 and 205 - The pedagogy courses deal with methods of teaching, role of the teacher, organization of the curriculum, classroom management and methods of evaluation. Thus the appropriate integration, either in direct form or indirect form is exist. During the teaching learning process, they are emphasized and discussed in great detail in the classrooms, through offline and online classes. Plan for classroom delivery in Bilingual mode. The teachers use both languages - English and Marathi during the classroom teaching because, though our college has separate two

divisions for two different medium students, Marathi and English respectively; the class is heterogeneous in many ways. The teachers therefore resort to bilingual instructions to ensure understating by all the students. The students are free to choose any of these two languages for writing exams, and completing tasks. Marathi medium students having Maths, Science and IT methods, are allowed to choose semi English pattern for writing exams, completing internship records and tasks. The course "language across the curriculum" help the students to understand the role of language in teaching learning. Efforts to promote Indian languages - Marathi is an ancient Indian language. Efforts are taken by the institution to promote Marathi language ' Marathi Rajbhasha Din' is celebrated on 27th Feb, of every year, to emphasize the importance of mother tongue in education. International ' Hindi Diwas' is celebrated on 14th Sept. of every year to emphasize the importance of National Language as a strong bond between the multilingual people of our nation. The traditional knowledge of food culture - programs were organized by the institution to promote traditional recipes and traditional millets. Efforts to promote Indian Arts - Students are trained in Indian arts to participate in cultural competitions. Separate teachers are appointed as Music and Art Teacher, who are ready to guide the students in acquiring the knowledge of traditional art forms. Efforts to promote Indian Culture - The Institution celebrates various religious festival. This promotes communal harmony and promotes the understanding of different cultures and traditions. Best practice for promoting 'Traditional Knowledge' under college GMC committee, many program have been implemented besides regular co-curricular activities, such as 'Palkhi', 'Bhondla' etc. at the institutional level.

**19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):**

As this is professional training course, syllabus consist of objective for each and every theory and practical course. It is focused on outcomes. theoretical part is knowledge based which enriches pedogogical aspects and practicium emphesises on skill enrichment. All the PLOs and CLOs of the course are clearly defided and practiced throughly throughout the training period. IQAC throughout the year monitors the whole process right from the begininig-planning, implimentation and end result that is fulfilment of PLOs and CLOs

**20.Distance education/online education:**

As college is affiliated to Savitribai Phule Pune University, Pune, it cannot offer vocational courses through online or

distance mode. In spite of this, college makes several efforts for 'Blended Learning'. The teachers of the Institution takes rigorous efforts to train themselves for the optimum use of technology for teaching and learning. Teachers participates in various online training programs and themes related to integration to technology. They use blogs, Google groups, Google sites, Whatsapp and another Google apps like Zoom, Google meet etc. to communicate and share resources with students. The teacher use a wide range of technological tools and apps and also promote their students to use maximum technological resources, so that the classes are always stays stimulated and engaged. While implementing the B. Ed. Syllabus, teachers and students produce a number of e-resources for their self-learning and also for school education.

2.3.7 - Teaching learning process nurtures creativity, innovativeness, intellectual and thinking skills, empathy, life skills etc. among students

Creativity and innovation are fundamental to all disciplines and an essential part of the learning process. Learning involves challenging, refining and improving understanding by being made to think hard. Sometimes, to understand new concepts and broaden perspectives, our approaches to thinking need to be creative, imaginative and lateral, as well as linear. In life skills education, Students are actively involved in a dynamic teaching

and learning process. The methods used to facilitate this active involvement include working in small groups and pairs, brainstorming, role play, games and debates.

Cultural program- Drama cum Dance (Specially abled child and their problems)

. In this cultural program college has selected theme of Specially abled child and their problems. Drama cum Dance style is selected to present this theme. Teaching is known as Nobel profession, so teaching profession has given significant responsibility to shape child personality development. Every child is considered to be unique, required attention and special care. That's why there is always continuous requirement of proficient teachers who have gained expertise in helping students with disabilities and disorders.

Cultural program- Old Age Home Visit

impact of internship in schools with specific reference to the role of teacher educators, school principal, school teachers and peers.

Our college conducts internship program for teacher trainee as prescribed in the syllabus given by Savitribai Phule Pune University, Pune. Institution adopts effective monitoring mechanism during internship program. College follows well-planned and organised schedule for internship program. The role of teacher educator is very important. Teacher educator communicates with schools. They facilitate and monitor the internship program. Teacher observes all activities of student trainee like their lesson plans, attendance, preparation of practical, lesson notes, and observation of trainee by other trainee. Mentor will authenticate the report prepared by student teachers. School Principal allots the school for internship; he takes care of their regular timetable and orient to supervisor and mentor teacher. He gives information about rules and regulation which should be followed by student-teacher. School teacher supports and encourage student trainee in preparing lessons planning and activities. Classroom performance of student trainee is observed and evaluated by school teacher. School teachers gives various duties to students teachers like checking of answer, script organization of co-curricular activities, maintenance of attendance register, correction of homework, notebooks maintenance of classroom discipline etc.

Peer observation plays important role in internship program. Peer groups perform on various assigned duties of co-curricular events for its successful completion. They work collectively on each duties and activities. . Peer observation is part of an assessment in which students are evaluated and gives feedback to another student. The intended purpose of the internship fully achieved and they have gained many benefits from the internship

## 6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) or any other mechanism has contributed significantly for institutionalizing the quality assurance strategies Describe the process adopted by the institution for quality assurance through IQAC or any other mechanism in not more than 100 - 200 words

The college has implemented quality management techniques in both administrative and academic areas. It is designed to encourage a culture of innovation, creativity, and rising standards. In order to address the shifting educational, social, and market demands, the college developed and formed a seven-member Internal Quality

Assurance Cell (IQAC) in 2004. The cell evaluates numerous aspects of the college's management and keeps track of how they're doing. It provides suggestions, i.e., from the start through the end of the course. This cell also reviews and responds to suggestions that are sent verbally, in writing. The College Development Committee (CDC) and faculty members attend monthly meetings that the IQAC conducts in order to accomplish this goal. The IQAC with the help of GMC creates a thorough annual calendar that details the activities and events to be held during the academic year based on proposals and feedback from all members. Arranging meeting dates and agendas is an essential duty that the IQAC with GMS regulates and facilitates. The NAAC's certification criteria and procedures are monitored and enforced by the IQAC.

Activities: - Assisting in the development of a learner-centered environment that is supportive of high-quality instruction and faculty development to take up the necessary knowledge and technology for active learning and teaching methods. Organize for students, parents and other stakeholder's feedback on institutional processes that affect quality. Documentation of various programs/activities in a college that leads to quality improvement.
